

FGLair™ makes comfort air anytime and anywhere!

When you add our Wireless Interface and FGLair app, you can control your home's cooling and heating anytime and anywhere!

UTY-TFNXZ1

You can remotely operate your home air conditioner using your smartphone as a remote control. Using a special app, you can check the operating status and change the operation settings.

With a single smartphone, you can check the operating status of not only your home air conditioner, but also the air conditioners in your second house and your parental home (up to 24 air conditioners).

Point User friendly interface

User friendly screen display facilitates easy operation.

Corresponds to 7 different languages (English, German, French, Spanish, Italian, Portuguese, Greek, Turkish, Russian)

Point Two types of weekly timer

You can set and check two types of timers at hand.

System diagram

- **Wireless router**
 - IEEE802.11b/g/n wireless LAN standard
- **Required Operating System version**
 - Android OS 4.1 or later
 - iOS 8.0 or later
